## Benefits for you at MAGNETIX Wellness

### Dear customers,

For many people, wellness and natural products have played an important role in their well-being for years.

I personally have felt an even greater desire in recent months to take care of myself and do something good for myself and for others.

It has now been over 20 years since I discovered the fascinating effects of magnets and I was thrilled from the start. Since then, this idea has given rise to magnetic jewellery collections and wellness products, which bring well-being, positive energy and vitality.

You can look forward to jewellery that makes an impact, soothing accessories with magnets and helpful ideas for relaxation in your daily life.

I would like to thank you, our dear customers and independent consultants, for staying loyal to us for so long and motivating us with your enthusiasm.

# MAGNETIC POWER

The earth's magnetic field cannot be perceived by our five senses, nevertheless it influences every living organism.

” Magnetism is a general-acting force. Its effect extends to everything – particularly humans, all animals and plants. “

Johann Wolfgang von Goethe

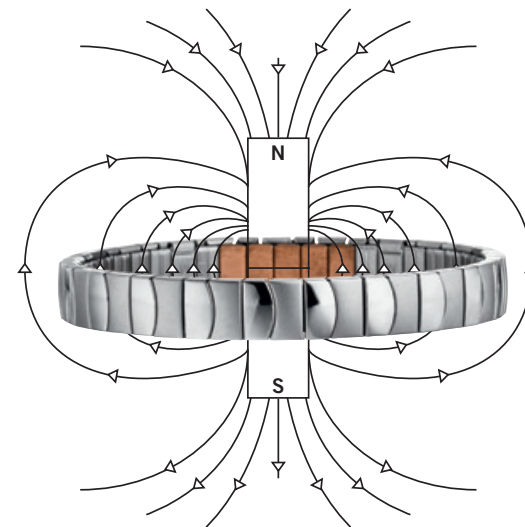

The power of magnets determines our daily lives. In nature, for example, birds and whales orient themselves to the magnetic field of the Earth; magnetic fields are also an integral part of the human organism.

**The force of the Earth's magnetic field cannot be:**

SEEN  
HEARD  
TASTED  
SMELT  
FELT

Nevertheless it has a strong effect, for example in loudspeakers (allowing beautiful music to reach us) or in modern examination methods such as with the MRI technique (which enables diagnosis without the use of x-ray).

## Neodymium: a superpower from Mother Nature

Magnets are one of nature's many fascinating wonders. For our products, we mainly use neodymium magnets with at least 1,200 gauss - they are among the strongest and longest lasting in the world.

## 3 interesting facts about magnetism

**1954** Linus Carl Pauling discovers the magnetic properties of our haemoglobin.

**1960** Researchers found out that migratory birds and marine animals utilize the earth's magnetic field for orientation.

**Today** Magnetism is used in modern medical examination methods and is a growing complementary medicine.

# FOR TENSION & PAIN

Cold in the form of damp compresses or towels can help with fever and headaches.

## Pain treatments with thermotherapies

Moist compresses are among the oldest household remedies in the world. Whether with fevers or sore throats – cold and warm compresses can bring relief to a wide variety of illnesses. Cold showers for health promotion were recommended as early as the 19th century by Pastor Sebastian Kneipp! Helping the body to heal itself:

if done in the correct way, heating and cooling can strengthen the immune system and alleviate symptoms. Heat provides for relaxation, while cold must first stimulate our body to trigger a reaction. As soon as a cold stimulus touches the skin, the human body reacts with defensive measures to compensate for the loss of heat, e.g. by increasing blood circulation!

## HOT

- ✓ **Relax muscles and joints**
- ✓ **Promotes blood circulation**
- ✓ **Alleviates cramps**

Heat in the microwave for approx. 10 seconds (caution: do not microwave with metal).

## COLD

- ✓ **Relieves pain**
- ✓ **Cools small wounds**
- ✓ **Reduces swelling & bruising**

Cool in the freezer for approx. one hour.

Cold Showers were first recommended by Sebastian Kneipp.

Cold Compresses are also used for sports injuries.

Tip

Order several at once so that you always have a cool pack at hand.

## HOT & COOL PACK

In the centre of the hot & cool pack you can attach a Power Heart so that you can combine the cold/warm therapy with your favourite accessory.

Foot reflex zone mat

# MAGNETIC POWER + NEGATIVE IONS

Countless nerve paths lead from the sole of our feet to various internal organs. If these organs are stimulated via the soles of the feet by a pressure point massage with gravel, it should have a positive effect on the whole body. For this reason, walking barefoot on a shingle beach or footpath is very popular.

- ✓ Relaxes, calms and increases well-being
- ✓ Effective relaxation and regeneration
- ✓ At the same time stimulation of all foot reflex zones
- ✓ Beneficial for cold feet and heavy legs
- ✓ Trains the sense of balance

(1.000-1.500/cm²), Size: 48,5 cm x 48,5 cm  
Weight: 2,5 kg  
each €159/£151.50

**Important:** Slight muscle soreness in the beginning is not unusual. It is a good idea to train first with socks or a towel underneath. Pregnant women, diabetics and people with acute febrile infections should discuss foot reflexology therapy with their doctor before beginning training.

Effective training for the whole body: with 2 sessions of 15 minutes each you can burn up to 350 calories.

# RELAX

## MASSAGES HELPS WITH

- ✓ Mild back pain
- ✓ Tension or pain in the back, neck or legs
- ✓ Tension in shoulders or hands
- ✓ Poor blood circulation
- ✓ Psychological stress

A massage also has an invigorating and relaxing effect on the head and face.

For heavy legs and muscle soreness, stretching or massaging helps.

## Massages affect the skin and the muscles

They promote the blood circulation of the skin and the musculature. The cell metabolism in the tissue is stimulated and blood pressure and pulse drop. The massage has a relaxing effect, hardenings in muscles and lactic acid can be eased and pain can thereby be relieved.

Not only the body, but also the psyche finds massages relaxing: the gentle touches can reduce existing stress.

## Gua Sha

In traditional Chinese medicine, the Gua Sha stone is mainly used for scraping body massages. When used for a gentle facial massage, they are a highly effective way to firm and refresh the skin.

**How to use:** Hold the Gua Sha stone at an angle and stroke from the centre of the face outward.

The stone always moves from the centre of the face outward and from bottom to top at the same time. The jawline can be stroked with the short side of the stone, while the wide side can be moved along the neck, for example. It can also be used to massage oils or creams into the skin.

**Tip for headaches:** A temple massage combined with an essential oil (e.g. Headcalm, see page on right).

# ENERGISING WATER

## SOME THINGS ARE HARD TO FORGET!

The magnetic stick in your glass is an attractive eye-catcher. It draws your attention to your glass or carafe all day long.

## DRINK REGULARLY!

Drink at least 1.5 - 2 litres of water throughout the day every day to keep your body and mind fresh and healthy!

## MORE TASTE!

A splash of lemon or a dash of fresh fruit juice adds something delicious and new to a glass of water. A few slices of cucumber, mint leaves or some fresh ginger are particularly aromatic. Simply stir with the magnetic stick and your natural thirst quencher is ready.

## Host an (online) jewellery and wellness party — it's easy:

1. Host your own jewellery party wherever and whenever suits you. Invite family, friends, acquaintances, neighbours and colleagues. In your own home, at work during the lunch break, in a café.
2. Your personal consultant will give you tips on how to invite and will arrive about half an hour beforehand with a selection of our jewellery and wellness products.
3. You and your guests will be given exciting information about the power of the magnets and our effective products.
4. There'll be plenty of time to ask for advice, try on some pieces and choose your favourite designs.
5. As the host, at the end you may select FREE JEWELLERY and wellness products to the value of 10 percent of the sales. On top of this, we have a lot of attractive offers and promotions for all hosts.

## Rosy times

The rose is the symbol of love, life and rebirth. With its delicate scent, it is a sign of grace and beauty. The red rose stands for passion, the white rose for pure love and innocence. Combined with powerful neodymium magnets, these pieces of jewellery are the perfect accessories and also appreciated as gifts.

## Fragrances for Well-being

Aromatherapy with essential oils has been popular for a long time. They have different effects, for example lavender has a calming effect whereas bergamot enlivens.

The symbol of the tree of life radiates energy, while the flower of life has a harmonising and protective effect. The rose stands for love and jasmine for purity and innocence. Combine your favourite fragrance with your favourite motif from this exclusive **aroma jewellery collection with magnets**.

## Gentle wave

An elegant curve captures the dynamic of a gentle wave on which pearls of water dance and the sunlight plays. It is the interaction of the colours that is fascinating. It is the harmonious lines that decorate – and the power of the magnets that you can feel.

## Soft strength

Filigree geometric motifs combined with powerful magnets – they go just as well with your office look as with your evening wear.

## Reflected light

Light, classic, delicate — pearls have always been fascinating to humans. The shimmering beads can be combined in many ways and make every woman's heart beat faster.

## Stainless steel

A big advantage, when it comes to stainless steel jewellery, is the fact that it does not discolour and is more durable than silver jewellery. Stainless steel is absolutely rust-proof and especially skin friendly. Our stainless steel pieces are endowed with powerful neodymium magnets.

# Positive Energy

## What are negative ions?

Among other things, our air is filled with charged atoms or molecules, so-called ions. If they have more protons than electrons, they are positively charged; if they have excess electrons, they have a negative charge.

Higher concentrations of negative ions of up to 50,000 per cm<sup>3</sup> are mainly found in nature. For example, near rivers and waterfalls, but also forests and mountains, and interestingly, where lightning has just struck.

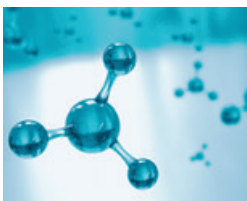

In closed rooms, especially in the vicinity of computers and other modern devices, there is usually an excess of positive ions.

The number of negative ions can be increased, for example, by frequent ventilation or also by a fine water jet such as a shower.

### Concentration of negative ions (Ø)

Environment	Negative ions/cm <sup>3</sup>
Air-conditioned room	0–100
Busy roads	100–300
Well ventilated house	500
River banks	600
Woodland	3,000
Waterfall	5,000–50,000

A favourable ratio is 60 % negative ions to 40 % positive ions.

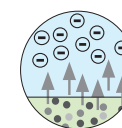

In the forest and at the water there are an especially large amount of negative ions.

## Wellness Jewellery with Negative Ions

Our Vitalix Wellness Collection combines the negative Ions, popular with many athletes and health-conscious people, with the power of magnets.

According to the ancient yin-yang theory, negative Ions balance out the positive Ion excess found in modern industrial nations. The skin-friendly silicone makes this magnetic Ion jewellery particularly pleasant to wear.

### Assembly instructions for bracelets and necklaces

#### Centre element for bracelets with spring bar 12 + 18 mm width

- 1 First insert the pin in the lower hole.
- 2 Push the button downwards and position the upper pin in the corresponding hole. Be sure the pin clicks properly into place.

### Details of materials and other important information

#### Magnets

The jewellery pieces contain one or more neodymium magnets. With 18 mm centre elements for bracelets you have approx. 1,800 Gauss, for water sticks approx. 2,200 Gauss. The magnets of most of the other jewellery pieces have a Gauss intensity of approx. 1,200 Gauss. Magnets may damage credit cards and other cards with magnetic strips. Please keep your cards away from magnet jewellery and accessories.

#### Materials

Most of our magnetic jewellery is made out of high quality stainless steel. Some jewellery pieces have a copper part built in.

#### Pacemakers

People with pacemakers should not wear magnetic products.

#### The right to cancel

As our customer you have a 14 day cancellation right. The full purchase price will be reimbursed. Should you for any reason not be content with your magnetic jewellery, you may return it within 30 days. You will then be refunded the purchase price less a 15% handling charge.

#### Copper jewellery

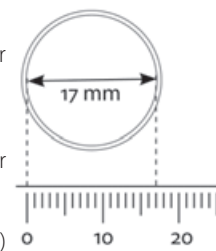

With some people wearing a copper bracelet, the wrist turns slightly green, as a result of a natural reaction between the acidity of the skin and the copper. This discolouration washes off easily with soap and water or a little lemon juice. Many MAGNETIX products are not made of copper as a lot of people do not want or need a copper supplement. In addition, some designs cannot be made of copper for technical reasons. To prevent discolouration of the skin, coat the inside of the bracelet with clear nail polish.

#### Jewellery care

Jewellery should be removed before showering, swimming or doing wet household chores. It can also be damaged by perfumes, creams, deodorants, hairspray or detergents. The best way to clean your jewellery is with a jewellery polishing cloth or lukewarm water.

### Ring sizes

Measure the internal diameter in millimetres of a ring that fits. This measurement is the order size. (Please only order in whole millimetres/sizes)

### Bracelets interchangeable 12 mm

### Bracelets interchangeable 18 mm

### Adaptable dual sizes for bracelets and link necklaces

- 1 Open the clasp.
  - 2 Insert, or take out, the extender. Close the wrap over clasp.
- A Extender link with wrap-over clasp.

### Shortening kid's bracelets

- 1 Open the fastener plate with a pointed object.
- 2 Pull out the strap, cut to the required length, re-insert and press the fastener plate back into place.
