# MAGNETS

*Really attractive*

We on earth have forever been exposed to forces and radiation - some of them we perceive consciously, others influence us invisibly - such as magnetism. It cannot be detected by our five senses. However the power of the earth's magnetic field affects all life on our planet.

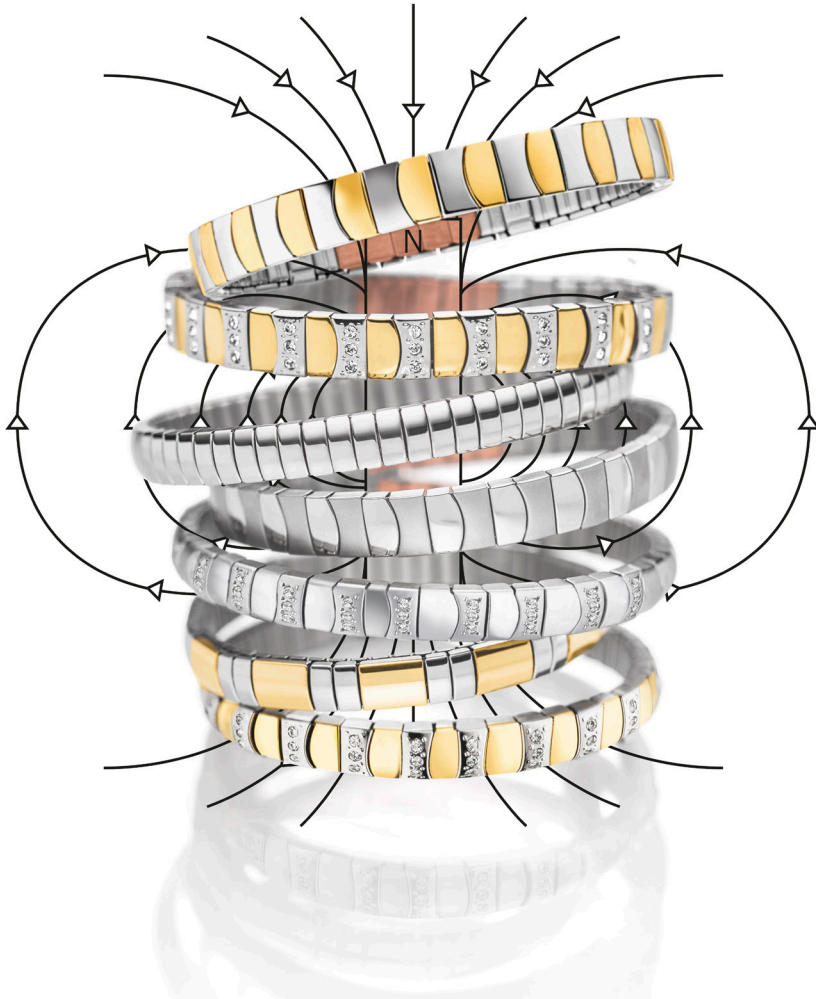

Magnetism is not only outside and around us but also hides within us. Just by existing and living we generate a magnetic field.

*“ Iron is the oxygen transporter in our body and the mineral also plays an important role in cell metabolism. ”*

Linus C. Pauling

## Why magnets are important for you

So we are constantly surrounded by a huge magnetic field. The force of the magnets has a strong influence on the life of all living beings on earth:

- **The Earth's magnetic field protects us from radiation.**
- **Migratory birds can sense the magnetic field and use it to navigate.**
- **The red blood cells, which supply our body with nutrients contain iron. A magnetic metal.**

## Massages affect the skin and the muscles.

They promote the blood circulation of the skin and the musculature. The cell metabolism in the tissue is stimulated and blood pressure and pulse drop. The massage has a relaxing effect, hardenings in muscles and lactic acid can be eased and pain can thereby be relieved.

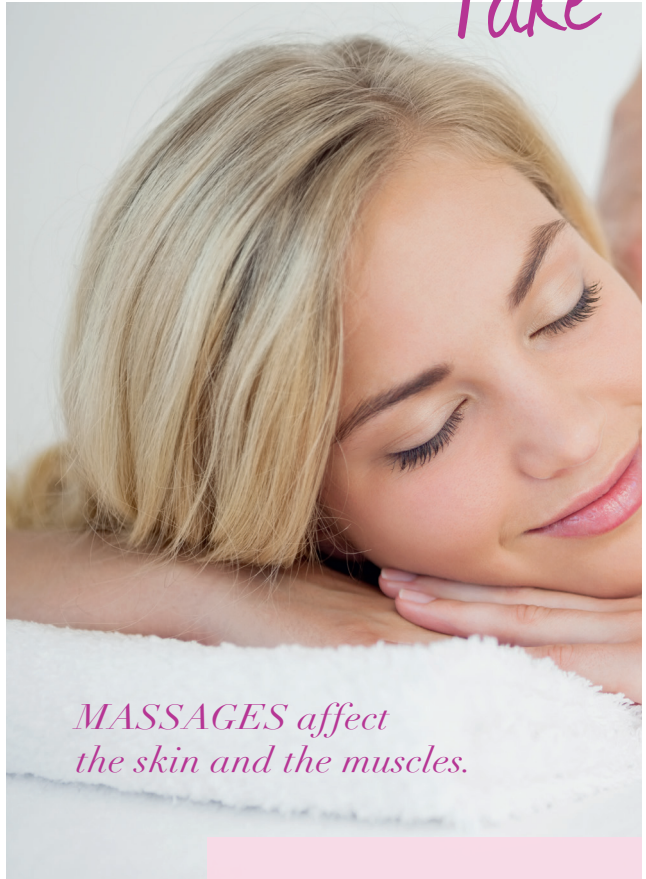

Not only the body, but also the mind finds massages relaxing: the gentle touches can reduce existing stress.

## MASSAGES HELPS WITH

# Magic COLOURS

## Aurora Borealis

The lights, which shine in fascinating colours, are called northern or southern lights, depending on which of the Earth's poles they occur at. They are best seen at night, but they are caused by the sun.

Sometimes a small portion of the sun's energy overcomes the Earth's protective magnetic field and enters the earth's atmosphere at the south and north poles.

This leads to the colourful play of light in mysterious violet, life-affirming green and orange or creativity-promoting turquoise.

## Assembly instructions for bracelets and necklaces

## Details of materials and other important information

### Magnets

The jewellery pieces contain one or more neodymium magnets. With 18 mm centre elements for bracelets you have approx. 1,800 Gauss, for water sticks approx. 2,200 Gauss. The magnets of most of the other jewellery pieces have a Gauss intensity of approx. 1,200 Gauss. Magnets may damage credit cards and other cards with magnetic strips. Please keep your cards away from magnet jewellery and accessories.

### Materials

Most of our magnetic jewellery is made out of high quality stainless steel. Some jewellery pieces have a copper part built in.

### Pacemakers

People with pacemakers should not wear magnetic products.

### The right to cancel

As our customer you have a 14 day cancellation right. The full purchase price will be reimbursed. Should you for any reason not be content with your magnetic jewellery, you may return it within 30 days. You will then be refunded the purchase price less a 15% handling charge.

### Copper jewellery

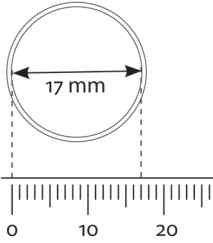

With some people wearing a copper bracelet, the wrist turns slightly green, as a result of a natural reaction between the acidity of the skin and the copper. This discolouration washes off easily with soap and water or a little lemon juice. Many MAGNETIX products are not made of copper as a lot of people do not want or need a copper supplement. In addition, some designs cannot be made of copper for technical reasons. To prevent discolouration of the skin, coat the inside of the bracelet with clear nail polish.

### Jewellery care

Jewellery should be removed before showering, swimming or doing wet household chores. It can also be damaged by perfumes, creams, deodorants, hairspray or detergents. The best way to clean your jewellery is with a jewellery polishing cloth or lukewarm water.

## Ring sizes

Measure the internal diameter in millimetres of a ring that fits. This measurement is the order size. (Please only order in whole millimetres/sizes)

### Adaptable dual sizes for bracelets and link necklaces

- 1 Open the clasp.
- 2 Insert, or take out, the extender. Close the wrap over clasp.

**A** Extender link with wrap-over clasp.
